## BELLEVUE'S 2015 SPECIES OF THE YEAR

Beginning this year, select Bellevue Natural Resource programs will feature a native species that is local to our city. The Species of the Year for 2015 is the little brown bat (*Myotis lucifugus*). This species is one that you may have already seen flying near your home or favorite park. Important predators of insect pests, bats are vital to the environment. But bats are also just plain cool!

Look for this bat icon next to program titles in this guide. These programs will feature information on the little brown bat and bats in general. Come explore what makes the little brown bat so special, and how you can help conserve bats in your own neighborhood. We'll even be going on some guided bat walks! Join us at all three visitor centers in 2015 to learn all about the little brown bat!
